

PLAYER APPEARANCES

The table below sets out the total appearances made, and the total goals scored, by each player for the professional Croydon Common club. Only competitive matches played by the first team are included within the figures. It was not possible to identify the scorers of two of the goals. It should be noted that the grand total of league appearances is not divisible by 11 because, in a small number of matches, a full side was not fielded due to non-arrivals. The statistics do not include appearances made, or goals scored, in matches that were later abandoned.

The League statistics include appearances and goals scored in the following league competitions: Southern League, United League, South Eastern League, London League, Western League, London Combination and Southern Football Alliance. The Minor Cup statistics relate to games in following competitions; London Professional Cup, London Professional Charity Fund and Southern Charity Cup. The match against the SFA Select in 1913-14 is also included under this heading.
